Book about header and Footer

Maxi

 ${\rm Oct~19th,~2019}$

In this lesson, the primary focus is on learning various kinds of headers and footers using "fancyhdr" package. For writing thesis, need to use "book" class instead of article. Numbering style ... different on even and off pages.

Chapter 1

Fancy Header and Footer

Can be used for following reaons

- 1. Separate header footer for even and odd page.
- 2. three part header/footer instead of single part.
- 3. different header footer for Chapter pages.

Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really? Is there no information? Is there a difference between this text and some nonsense like "Huardest gefburn"? Kjift – not at all! A blind text like this gives you information about the selected font, how the letters are written and an impression of the look. This text should contain all letters of the alphabet and it should be written in of the original language. There is no need for special content, but the length of words should match the language. Hello, here is some text without a meaning. This text should show what a printed text will look like at this place. If you read this text, you will get no information. Really?
